## Frozen Meat Mincer W 300

### “THE CLASSICAL” SERIES

“THE CLASSICAL” Series of Food Machines fulfil the requirements of most of the customers worldwide. The classical design and the very competitive equipment components are topped by an excellent cost performance ratio.

Double Screw Grinder for fresh and frozen Meat W 300

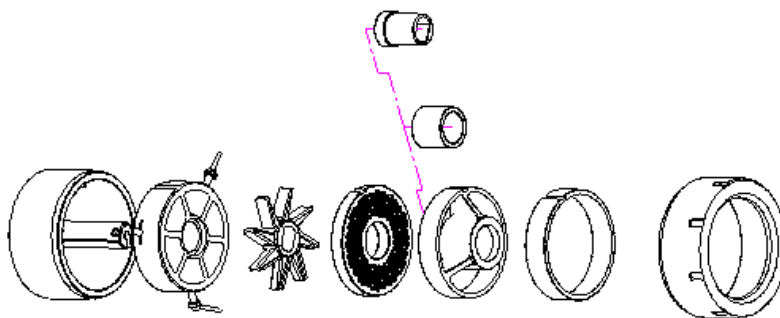

## Leading Food Machines

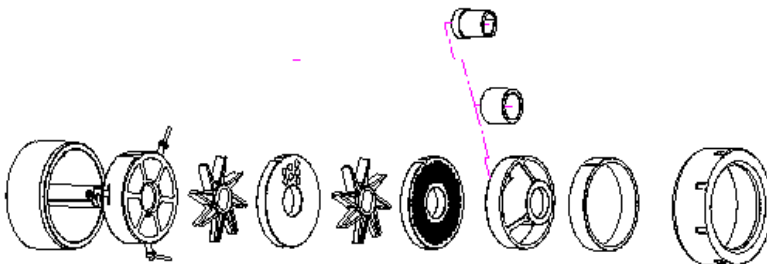

The stainless steel body is specifically design for an easy cleaning and fulfil all hygienic as well as of course all safety requirements.

The machine has a most modern and powerful frequency controlled variable drive of the feeding screw (10-40 rpm with 15 Kw) and a single speed for the main screw with a powerful motor (175 rpm with 90 Kw).

The machine cuts in the first part of the screw the standard sized frozen meat blocks (Size 600X400X200 mm up to -18 C) without using a flaker before and reaches a capacity for fresh meat up to 16 tons / hour ( with a 8 mm hole plate) and for frozen meat up to 4,5 tons / hour.

Fresh (cold) meat cutting set for 0 – (-4 °C) processing

The powerful variable Siemens AC frequency motor makes the whole unit strong enough to process even deep frozen meat and reduces at the same time the power consumption.

All electrical and electronic components are integrated in either an integrated switch cabinet. The main components and are mostly from the German Brand Siemens.
