Sharpening Machine SMK for Bowl Cutter Knives / “THE CLASSICAL” SERIES

“THE CLASSICAL” Series of Food Machines fulfil the requirements of most of the customers worldwide. The classical design and the very competitive equipment components are topped by an excellent cost performance ratio.

The SMK is specially designed for Bowl Cutter Knives.

The machine is made out of stainless steel including a sand and polishing wheel and a sanding belt. All of the items are cooled with water.

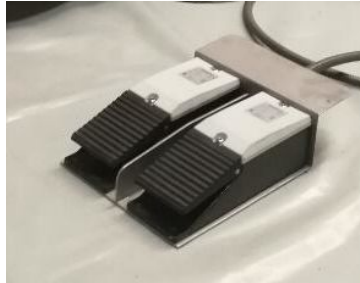

Due to the self-locking function a clamp device is no longer needed.

By loosening two clamping handles, the edge angle adjustment device can be moved in every direction. The system is suitable for variously shaped knives.

KILIA

The height of the knife edge angle regulator can be easily adjusted by a foot pedal.

Main Technical Data

Total power	1 kw
Voltage	400 V (three phases four wire)
Frequency	50 Hz
Waterproof	IP 54
Sand wheel speed	400 rpm
Sand belt/ polishing wheel speed	1500 rpm
Weight	About 90kg
Size	800 (L) × 1000 (W) × 500 (H) mm

Edition: May 2020
